

GIRL♥NATION

At Girl Nation we work to build a safe and supportive environment built on kindness and support. As we get to know each other better, we may share personal experiences. All interactions and private details shared must be kept confidential. When we feel safe, we are much more willing to disclose personal information. To be able to have honest and real conversations we must trust and respect each other.

I _____ promise to respect my fellow Girl Nation friends and keep their stories safe and protected. Once Girl Nation is completed I _____ will become a Girl Nation Ambassador. I will take what I have learned and incorporate into my daily living. I will share with my friends some of the important information and tools that I learned. I will do my best to not only respect myself but also respect my Girl Nation friend's.
